

How we helped

Our client find a Clinical Training Specialist in the Cambridge area.

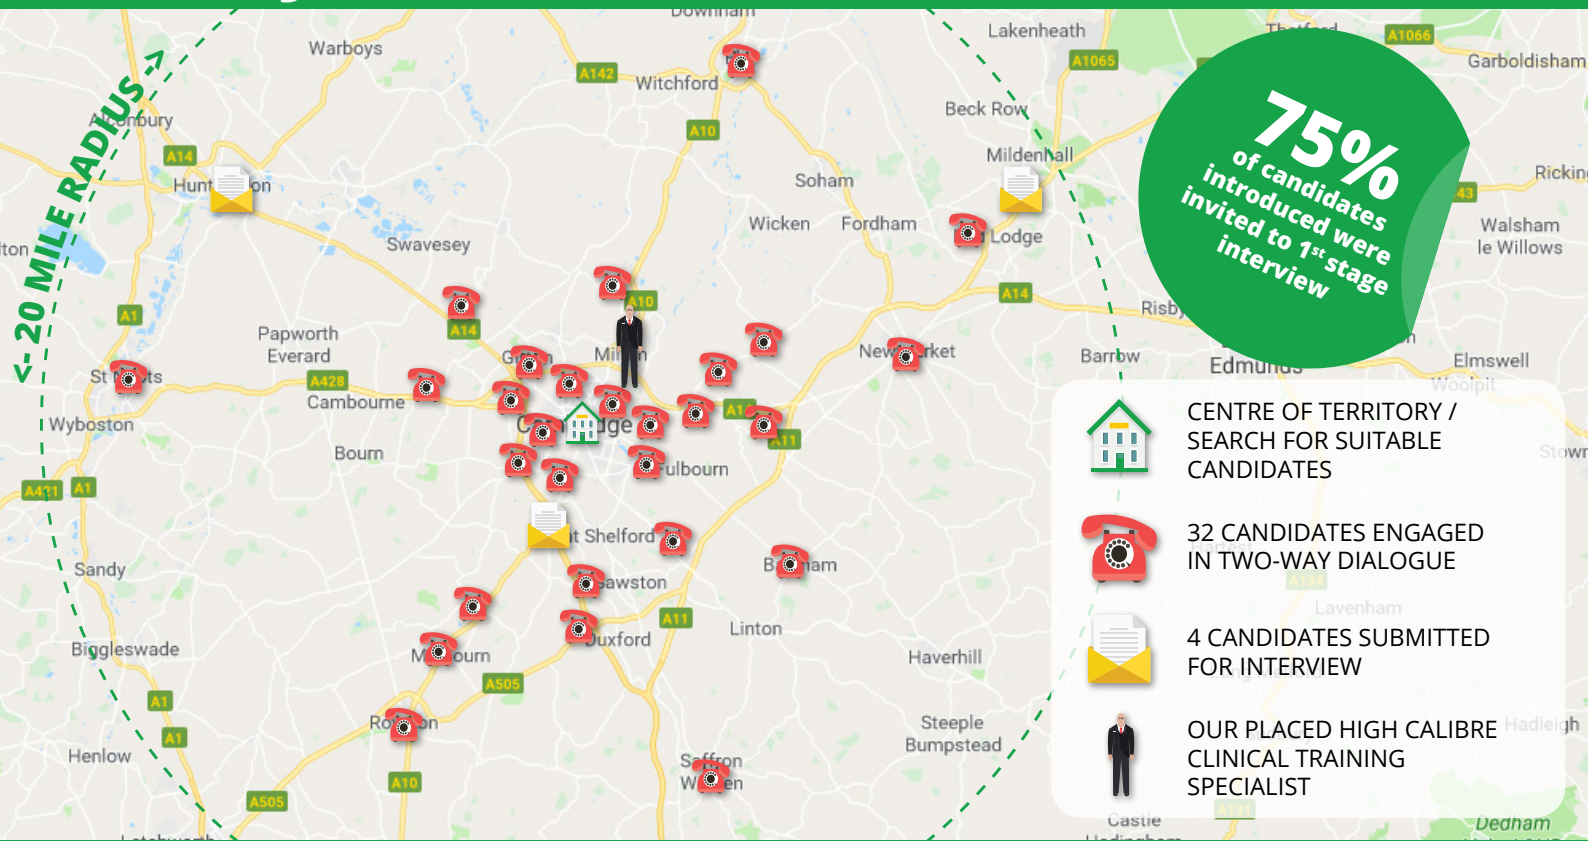

The following clinical specialist role was delivered on time with minimum maximum efficiency to the National Sales Manager. Our client had a deadline to hit, they needed their new team member in place within four weeks so we knew we needed to find someone that would not only have the relevant skills and experience but also be able to move in time to meet the deadline.

The brief

- Current clinical or training experience in NHS environment
- Commute of less than 30 minutes to Cambridge
- 4 week time frame from brief to offer
- Excellent career pedigree and ability to work closely with key surgeons

Our average time to hire candidates across 9 projects is
20 days

4 stage selection process averaged
43 hours per project

Raistlin | Product Specialist Cambridge

I had a smooth, helpful and well prepared recruitment process thanks to David and his team. He has remained reachable and offered real insight into the hiring company throughout. He is the best recruiter I have worked with and I can wholeheartedly recommend his expertise.

We placed 1 candidate with clinical training experience of 5 years in the NHS and armed forces.

We are keen to share our successful approach with you and establish a trusted partnership with your business, contact us today to request a call back to discuss how Prospect Health can deliver outstanding results in your recruitment and retention strategy.
